

Urgent Care Association of America

Alex Fishberg, MD

Dr. Alex Fishberg is the current medical director of the Florida Hospital family medicine residency program in Orlando, Florida. His medical degree was earned from University of South Florida in Tampa, Florida. He completed his residency in family medicine, at the Hinsdale family medicine residency, Hinsdale, Illinois.

During the 1990s, Dr. Fishberg practiced a full range of family medicine in rural Indiana. His practice included obstetrics and gynecology, colonoscopy and EGD, emergency room medicine, occupational health, pediatrics, and geriatrics.

From 2005 – 2006, he served as the Chief of Staff for his local hospital and continued academic medicine at the Fort Wayne family medicine residency.

Dr. Fishberg currently is responsible for the day-to-day operation of a 26,000 square-foot family medicine facility. Beyond the scope of practice above, Dr. Fishberg regularly teaches the practice management and radiology course at the residency program.

For a curriculum vitae and publications, please directly contact Dr. Fishberg.
