

Urgent Care Association of America

Brad Peckler MD, FACEP

Dr. Peckler is the Associate Professor and Director of Simulation at the Department of Emergency Medicine at the University of South Florida, College of Medicine.

After Dr. Peckler finished his training and chief resident year at Beth Israel Medical Center he became a core faculty member of the Cornell University Emergency Medicine residency at Lincoln Hospital in the South Bronx, New York. While there he did extensive training and teaching of trauma care. He was part of a team that had developed a trauma course for primary care providers in Spanish that was given in many different countries. In 2002 he went to a rural regional trauma center in Florence, South Carolina. While there he continued his academic pursuits in New York and continued his research. In 2004 he moved to Florida to become a core faculty member in the Emergency Medicine residency at the University of South Florida at Tampa General Hospital. He is currently the Director of Simulation for the department and has worked extensively with the medical school simulation program. While simulation has been his main focus of teaching and research, he also has a strong interest in emergency ultrasound. At USF he has continued his interest in international EM and has traveled the globe presenting and giving courses in trauma, simulation, and ultrasound.

Dr. Peckler received his BA from Tulane University in 1992 and his MD from St. George's University School of Medicine in 1996. He completed his Emergency Medicine residency at Albert Einstein College of Medicine, 1999. He is Board Certified by American Board of Emergency Medicine.

Dr. Peckler is an author of over 30 scientific publications and book chapters. His research interests relate to simulation and simulation applications, medical education, and international emergency medicine. He serves as an editor on several journals. He has been the recipient of many grants for simulation, education, and ultrasonography.
